

The Macula Society
33rd Annual Meeting

Tucson, Arizona
February 24-27, 2010

Imaging and Case Study Conference
Wednesday February 24, 2010
4:30 p m – 6:30pm

4:30pm-6:30pm

Chair: Larry Yannuzzi
Moderator: Carol Shields

4:30 pm:

Philip Rosenfeld

Imaging Conference

A Pitiful Outcome

4:36pm:

Rajendra
Apte

Imaging
Conference

Sickle cell retinopathy with tangential traction and a full
thickness macular hole

4:42 pm:

Hyoung
Koh

Imaging
Conference

Prognostic Factors for Visual Outcome after Intravitreal Anti-
VEGF for Myopic Choroidal Neovascularization

4:48 pm:

James Folk

Imaging Conference "Relapsing Choroiditis"

4:54 pm:

Carol Shields

Imaging Conference

Unusual cause of macular edema

5:00 pm:

Charles Barr

Imaging Conference

Unkown or Masquerade sysndrome

5:06 pm:

Leonidas
Zografos

Imaging
Conference

Wide field (150°) ICG and fluorescein angiography in
uveal melanomas

5:12 pm:

Michael Marmor Imaging Conference Youngster referred for chronic serous detachment

5:18 pm:
Andrew Lotery Imaging Conference Successful Treatment Of Choroidal Neovascularization Secondary To Sorsby'S Fundus Dystrophy With Intravitreal Bevacizumab

5:24 pm:
Mark Johnson Imaging Conference Mystery Case

5:30 pm:
Stephen Tsang Imaging Conference Autofluorescence Imaging and Phenotypic variance in a Sibling pair with Early Onset Retinal Dystrophy due to defective CRB1 function

5:36 pm:
Salomon Cohen Imaging Conference West-Indies Cracked Retinal Pigment Epitheliopathy

5:42 pm:
K. Freund Imaging Conference Using the SD-OCT "Time Machine" to Clarify the Origin of Type 3 Neovascularization

5:48 pm:
Mathew MacCumber Imaging Conference Vitrectomy for Myopic Macular Retinoschisis

5:54 pm:
Anita Agarwal Imaging Conference Salt and Pepper Fundus in Women in a family

6:00 pm:
Robert Liss Imaging Conference Choroidal neovascularization in a child, unknown. Long term follow up.

6:06 pm:
Michael Goldstein Imaging Conference macular Edema ?

6:12 pm:
Lawrence Yannuzzi Imaging Conference A Mystery Curvilinear Tract in the Fundus: Straightening it out

6:18 pm:
Richard Spaide Imaging Conference Fluorescein Case - Panretinal Fluorescein Angiogram of Central Retinal Vein Occlusion

6:24 pm-
Jose Pulido Imaging Effect of PDT on peripapillary lesion
